

OIL & GAS MARKET SOLUTIONS

Electrifying Progress in Energy
with **Tailored Oil & Gas Solutions**

↓ MARKET OVERVIEW

NSA stands at the forefront of the oil & gas sector, providing dynamic solutions that drive efficiency and innovation in energy production

↓ KEY BENEFITS

- Turn-key engineering/design integration team with manufacturing and commissioning capabilities
- Packaging experts with LV & MV VFD's and control systems in E-houses to enhance operational and installation efficiency
- Cost effective automation and digitalization solutions, combining technology and application experience to provide optimized solution
- Scalable manufacturing to manage customer needs in multiple locations with flexible skilled resources

↓ SERVICE OFFERINGS

- Comprehensive solutions: utilizing extensive product knowledge and design experience to deliver superior solutions for upstream, midstream and downstream markets
- Dynamic, knowledgeable and responsive technical team to provide top rated support from projects to field service

↓ NOTABLE INTEGRATIONS

From mobile E-Frac systems to complex O&G processing facilities, NSA's solutions are key to powering the industry's progress
